

NIBE Uplink™

Remote managing and monitoring of your heat pumps

NEW

Features of NIBE Uplink™

NIBE introducing a new, efficient tool that gives you quick and easy control over your property's heat pump - wherever you are.

A web interface over the Internet offers you an instant view of e.g the temperature and current status of the heat pump in your property.

Provides the benefit of external monitoring for several properties at the same time.

Clear, easy way of monitoring and controlling heating and water temperatures for maximum comfort.

In the unlikely event of a system malfunction you receive an alarm directly in your mail, allowing you to respond in the fastest possible time.

Simple installation with a "click" of an ethernet cable.

Provides logging of heat pump parameters presented in a user-friendly history chart.

NIBE Uplink™

Freedom - anywhere, any time

Using the Internet and NIBE Uplink you can get a quick overview and the present status of your heat pump and the heating in your property. You get a good overall view where you can follow and control your heating and hot water production. If your system is affected by an operational disturbance you receive an alert via e-mail that allows you to react quickly.

NIBE Uplink also gives you the opportunity to control comfort in your property no matter where you are. We call it NIBE freedom.

Compatible system - please visit www.nibeuplink.com.

Technical specifications

NIBE Uplink™

Installation

Before you can start using NIBE Uplink the product must be installed and setup according to the instructions in the installer handbook for your heat pump. Visit <http://www.nibeuplink.com> for more information. When you connect to NIBE Uplink certain data traffic will be generated via your internet connection.

Range of services

Via NIBE Uplink you have access to different levels of service. A basic level that is free and a premium level where you can select different extended service function for a fixed annual subscription fee (the subscription fee varies depending on the selected functions).

Service level	Basic	Premium ¹⁾
Monitor	X	X
Alarms	X	X
History ²⁾	X	X
Extended history ³⁾		X
Change settings ⁴⁾		X

- 1) These functions are available at premium level.
- 2) History means 1 month's history of a limited amount of parameters depending on the installation, see page 7 for more information.
- 3) Extended history means history since connection of NIBE Uplink, of a further 30 parameters depending on the installation, see page 7 for more information.
- 4) Change settings means in principle full access to the menus "INDOOR CLIMATE", "HOT WATER" and "HEAT PUMP" (with the exception of certain sub-menus such as "time & date", "my icons" and "sms").

Requirements

The following is required in order for NIBE Uplink to function:

- Compatible system - please visit www.nibeuplink.com
- Network cable Cat.5e UTP (straight, male-male), wired network communication.
- Internet connection (broadband).
- The web browser that supports JavaScript. If you use Internet Explorer it must be version 7 or higher. See help file in your web browser

My system: this page shows information about your system.

My system

STATUS

Overview: This shows a status overview of the selected system. For example, temperatures, operating status and any notifications regarding the system are displayed.

SERVICE INFO

This displays certain information from the menu "INFO" (the amount of information varies depending on the system).

CHANGE SETTINGS

This alternative requires premium service. Here you can change the settings for your menus "INDOOR CLIMATE", "HOT WATER" and "HEAT PUMP" (with the exception of certain sub-menus such as "time & date", "my icons" and "sms").

HISTORY

Here history is displayed in the form of diagrams for status and the temperature sensor in your system.

ALARM

Information and proposed action for any relevant alarms as well as alarm history is shown here.

PREMIUM

Here you can create subscriptions for the different functions from the premium service level and see current status and purchase history of your subscriptions.

OPTIONS

Here you can perform the following:

- Adapt the overview image (the page that you see when you first enter your system).
- Edit the system profile (name and address of the system).
- Security (allow other NIBE Uplink accounts to control and/or monitor your system).

SUPPORT

You can download manuals and the latest software for your system here.
